5. Tournament Structure and Procedures

5.1. Each league will send one team for each division. The extra places will be filled by seeking teams on the following schedule:

5.1.1. First – the current host league

5.1.2. Second – the previous host league

5.1.3. Third – the previous champion's league

5.2. Teams from the same league will be played in opposite pools but all other teams will be randomly placed into one of the two pools. Within each pool a round robin will be played. The top two teams from each pool will advance to the championship round. The winner of pool A will play the runner up of pool B and the winner of pool B will play the runner up in pool A. The winners advance to the championship game and the losers advance to the consolation game.

5.3. In the event of a tie at the end of the round robin play, the following tie breaking format will be used:

5.3.1. If two teams are tied for any position, the tie goes to the team which defeated the other in round robin play.

5.3.2. If three teams are tied for any position, then the draw to the button measurements from the round robin play will determine the team that will advance.

5.3.2.1. During the practice/warm up one player shall shoot a single rock with sweeping to the button to determine hammer for the game.

5.3.2.2. The umpire will record the measurement from the pin to the rock with a maximum value of 199.6 cm (as per CCA Rules). The cumulative total distance of the measurement for each team during round robin play will be used to determine the points for more than two teams. The team with the shortest/lowest total distance will receive the higher placement.

5.3.2.3. Coaches can consult with their teams during the practice for the draw to the button

- 5.3.2.4. From the time the umpire calls time, each shooter has 15 seconds to deliver their stone. Failure to release the rock in that time, will receive an automatic maximum of 199.6 cm.
- 5.3.2.5. Sweeping shall be allowed following OCA rules, except the opposing skip shall not sweep behind the T-line.
- 5.3.2.6. The rock will be removed after the umpire scores the shot and grants permission to do so.
- 5.4. All games shall be eight ends. In the event of a tie, an extra end will be played shooting toward the glass. In the event a tie still exists, one member from each team will throw one rock with sweeping. The rock closest to the button wins. If the game is going an extra end, there will be a one timeout available for each team.
- 5.5. When it is no longer possible for one team to win or tie, the game will stopped or be called off by the umpire.
- 5.6. If time permits, practice time should be made available before each game. (9 min)
